efloat®

Humanscale®

HUMANSCALE'S EFLOAT LINE BRINGS STATE-OF-THE-ART PERFORMANCE

and flexibility to the modern workplace. Simply add your desired work surface to this height-adjustable table base and enjoy a healthier work style! At the press of a button, users can quickly find their ideal desk height for long-term comfort and well-being.

Available in four touchpad options, including a digital memory touchpad that can store preferred positions, eFloat is easy to customize to each user's needs and allow for simple, noise-free height adjustment throughout the day.

---

eFloat Lite

eFloat Lite's price-to-performance ratio makes it easy to bring the health and productivity benefits of sit/stand into any office, without sacrificing the quality Humanscale customers expect.

eFloat Flex

Ideal for heavier work surfaces, eFloat Flex's sturdy, expandable frame holds up to 400 pounds (with HD Frame) and accommodates a variety of designs beyond the standard desk.

Design Story

Designed for the modern office, eFloat Lite and eFloat Flex can be easily connected to work tools such as keyboard trays, monitor arms and cable management solutions, to complete any ergonomic workstation.

Features

- Made in the USA with best-in-class German motor technology
- Ease-of-use encourages users to regularly alternate between sitting and standing postures for long-term health
- Durable frame supports a variety of work surfaces
- Sleek, clean design aesthetic with 9 available colors to complement any any work environment
- Supports stand-alone desks or multiple desk solutions
- Innovative safety sensor prevents table from bumping into objects when height is raised or lowered
- Certified to UL962, ANSI/BIFMA X5.5, and BIFMA LEVEL® 3

Available in two touchpad options, including a digital memory touchpad that can store preferred positions, eFloat Lite and eFloat Flex are easy to customize to each user's needs and allows for simple, noise-free height adjustment throughout the day.
