Humanscale

Float Height-Adjustable Collaborative Tables

Ergonomics Everywhere

The way we work is changing. The line is blurring between office, WFH areas, and shared spaces like cafes and co-working lounges, demanding a healthier approach to work. Furniture should support us—adapting effortlessly to our needs, not the other way around. Our Height-Adjustable Collaborative Table Collection is designed for movement, flexibility, and ergonomic comfort in every setting, ensuring workspaces that promote well-being, wherever work happens.

Productivity in Motion

Float height-adjustable collaborative tables make it easy to stay active and comfortable, encouraging frequent changes in posture, improving circulation, reducing muscle strain, and preventing the health risks that come from prolonged sitting.

Effortless Adaptability

Whether brainstorming, collaborating, or taking a quick break, these tables adapt to your team's needs. Experience freedom to move, create, and collaborate without boundaries—because productivity flourishes within flexibility.

Float Gather, White Base, White Low Sheen Laminate Top

Made to be Yours

Our surface options are designed to bring warmth and tactility to any environment—whether at home, in the office, or in a collaborative space. From premium solid wood to durable laminate, each material is thoughtfully selected to invite a sense of calm and familiarity. Paired with a curated range of base colors and an array of sophisticated finishes, every table offers a sensory experience that feels welcoming from the very first touch.

Float Mini, Natural Linoleum Assorted Colors

Design Story

The Humanscale Design Studio is driven by a commitment to creating products that seamlessly integrate into the modern workspace while enhancing human health and comfort. With a focus on simplicity, functionality, and sustainability, the studio employs a rigorous design process that merges advanced engineering with timeless aesthetics. At every stage, each product is crafted with the user in mind, prioritizing ergonomic excellence and environmental stewardship, resulting in designs that are as enduring as they are innovative.

Humanscale's Float height-adjustable collaborative tables are the perfect solution for improving wellbeing and productivity, wherever work happens. With a sleek design and eco-friendly materials, Float height-adjustable collaborative tables are as flexible as they are functional. Their advanced counterbalance mechanisms allow for effortless height adjustment, ensuring ergonomic comfort at all times.

Designed for Durability and Sustainability

Quality That Lasts

Built to last through years of daily use, Float height-adjustable collaborative tables are crafted with premium materials that are third-party verified for quality and transparency. Rigorously tested beyond industry standards, each table delivers long-term durability, looking and performing as well after a decade of heavy use as they do on day one.

Formaldehyde-Free

Formaldehyde, which is considered a carcinogen by the FDA and EPA, is present in most worksurfaces. We have gone to great lengths to produce safer and healthier worksurfaces, removing formaldehyde from the core, glue, and edge banding.

*Trace amounts of formaldehyde naturally occur in wood. This claim does not apply to laminate options, as no suppliers of laminate top surface material offer formaldehyde-free options. However, all our worksurfaces have been lab tested to ensure no formaldehyde VOCs off-gas.

Positive Environmental Impact

Like all Humanscale products, Float height-adjustable collaborative tables are designed with a positive environmental impact in mind at every stage of development. For us, the best designs in the world achieve more with less, and sustainability is the natural result of this focus.

Each of our height-adjustable collaborative tables are made for durability and longevity and is rigorously tested to ensure it looks and performs like new after many years, keeping it in use and out of landfills. Float height-adjustable collaborative tables are also made in facilities that are certified TRUE Zero Waste, adhering to the industry's highest standards for sustainability.

Float Gather

A Go-To Table for Every Occasion

Float Gather is designed to bring people together, offering a generous worksurface and instant height adjustability for every collaboration. Ideal for meetings, brainstorming sessions, or casual conversations, it adapts to group settings with ease, encouraging connection and creativity in any workspace.

Gather Your Way

Explore various worksurface options, crafted from natural materials for healthy, extended use. Float Gather is made to be customized for any use or environment.

Control Without Cords

With a minimalist design, Float Gather adjusts effortlessly without electricity, making it a versatile addition to offices, meeting rooms, social spaces, and anywhere else collaboration happens.

Float Gather, Black Base, Walnut Veneer, White Base, White Oak Veneer, Black Base, Black Laminate

A New Level of Collaboration

Designed to bring people together, Float Gather's seamless height adjustment allows everyone to find their comfort level, promoting active collaboration and engagement.

Float Mini

Small Footprint, Big Possibilities

Float Mini is a compact sit-to-stand workstation built for versatility. Whether used as a personal touchdown desk or a flexible workspace in shared environments, it offers smooth height adjustability and an ergonomic design that prioritizes comfort.

Move More, Feel Better

Research shows even three minutes of standing for every hour spent sitting reaps enormous benefits. Float Mini allows you to move from sitting to standing and back again, effortlessly—promoting better circulation, focus, and overall well-being.

Compact, Thoughtful Design

With an offset leg for extra legroom and a Y-style base that accommodates a chair, Float Mini is designed for comfort in tight spaces.

Style That Fits

Available in six colors with bamboo, natural linoleum, and powder-coated MDF finishes, Float Mini blends seamlessly into modern workspaces and home offices alike.

Float Mini, Natural Linoleum Forest Green

Float Micro

From Lounge to Work, Always Within Reach

A sleek “sit-to-sit” table designed to bring ergonomic flexibility to lounge and collaborative spaces. With its adjustable height range, Float Micro provides the perfect surface whether you’re seated at a low sofa or a standard task chair.

Couch-to-Chair Comfort

Float Micro transitions quickly and simply from couch height to desk height, keeping your workflow uninterrupted. Whether you’re working, unwinding, or transitioning between spaces, its smooth manual height adjustment adapts to your needs

A Side Table That Does It All

Lightweight yet durable, Float Micro is perfect for expanding your workspace, holding your laptop, or serving as a versatile side table. Stylish and practical, it fits effortlessly into homes, offices, or shared environments, delivering essential utility wherever you need it.

Customizable for Every Style

Float Micro elevates your workspace with a range of premium worksurfaces, thoughtfully designed to meet both your practical needs and creative vision. Choose from the sleek sophistication of natural linoleum, or the classic appeal of powder-coated MDF. Each surface is crafted to deliver a perfect balance of style, durability, and functionality, seamlessly enhancing any home, office, or shared environment.
