NeatTech
Stores cables and power strips off the floor.

NeatUp
Conceals wires during desk height adjustment.

NeatHub

Streamlined Access for Every Device

Power and Connectivity at Your Fingertips

NeatHub Series simplifies charging and connectivity by offering a range of desktop power solutions that centralize outlets and USB ports into one accessible hub. Designed to reduce cable clutter and support a variety of user needs, the NeatHub family ensures essential power connections are always within easy reach—enhancing workflow and maintaining a clean, organized workspace.

NeatHub Charging Station, Black

Keep Cables and Devices Within Reach

- **NeatHub Charging Station**: Provides standard AC power and USB access in a compact desktop hub, streamlining everyday connectivity.
- **NeatHub USB Charging Station**: Delivers fast, efficient charging with a combination of USB-A and high-powered USB-C ports—ideal for modern devices.
- **NeatHub USB Charging Station Duo**: Offers integrated power above and below the worksurface in a single solution, supporting environments with strict electrical code requirements. Multiple port configurations support a variety of setups, minimizing clutter and keeping devices powered.
- Its low-profile design integrates seamlessly into any workspace, delivering reliable, everyday performance.

NeatHub USB Charging Station, White

M/Connect 3

Essential Ports
Within Easy Reach

A Cleaner, More Efficient Workspace

M/Connect 3 is Humanscale's Red Dot Award-winning connectivity hub, designed to simplify technology and create a cleaner, more efficient workspace. By centralizing power, charging and data connections in one intuitive solution, M/Connect 3 keeps essential ports within easy reach while reducing cable clutter below the desk.

M/Connect 3, Black

Modularity, Streamlined

Available as either a standalone desktop hub or fully integrated into the M/Class Monitor Arm technology base, it provides a clean, streamlined solution that maximizes both desk space and functionality. Its modular, serviceable design is built to evolve alongside changing workplace technology, helping organizations protect their investment over time.

M/Connect 3 comes as either the M/Power Charging Hub, USB Data Hub, or the feature-rich Pro Dock with patented split dock technology, offering the flexibility to support everything from individual workstations to enterprise-wide deployments.

M/Charge

Effortless Power,
Modern Aesthetic

Charging Made Simple

M/Charge is a premium wireless charging solution that brings effortless power to the modern workspace. Designed to complement M/Connect 3 docking station or function as a standalone accessory, M/Charge wirelessly and magnetically charges up to two compatible devices simultaneously—including Qi, Qi2, MagSafe and Pixel Snap-enabled smartphones and wireless earbuds—with up to 15W of fast charging.

M/Charge, White

Elegant Design, Everyday Convenience

By eliminating cable clutter and making charging as simple as placing a device down, M/Charge creates a cleaner, more intuitive user experience that supports today's flexible ways of working. With built-in theft deterrence, M/Charge combines elegant design, everyday convenience and enterprise-ready functionality in one seamless solution.

When paired with M/Class Monitor Arms and M/Connect 3, it creates a complete desktop ecosystem that seamlessly integrates power, connectivity and wireless charging into one elegant, human-centered solution.

NeatCharge

Effortless Charging,
Zero Distractions

NeatCharge is a seamless wireless charging solution that mounts discreetly beneath the worksurface, delivering 10W of power to Qi-enabled devices through surfaces up to 1.50” thick. By eliminating visible charging pads and cable clutter, it helps maintain a clean, open aesthetic, ideal for both home and office environments. Available as a single unit or as NeatCharge Quad, a 4-pack designed for multi-desk setups and shared spaces.

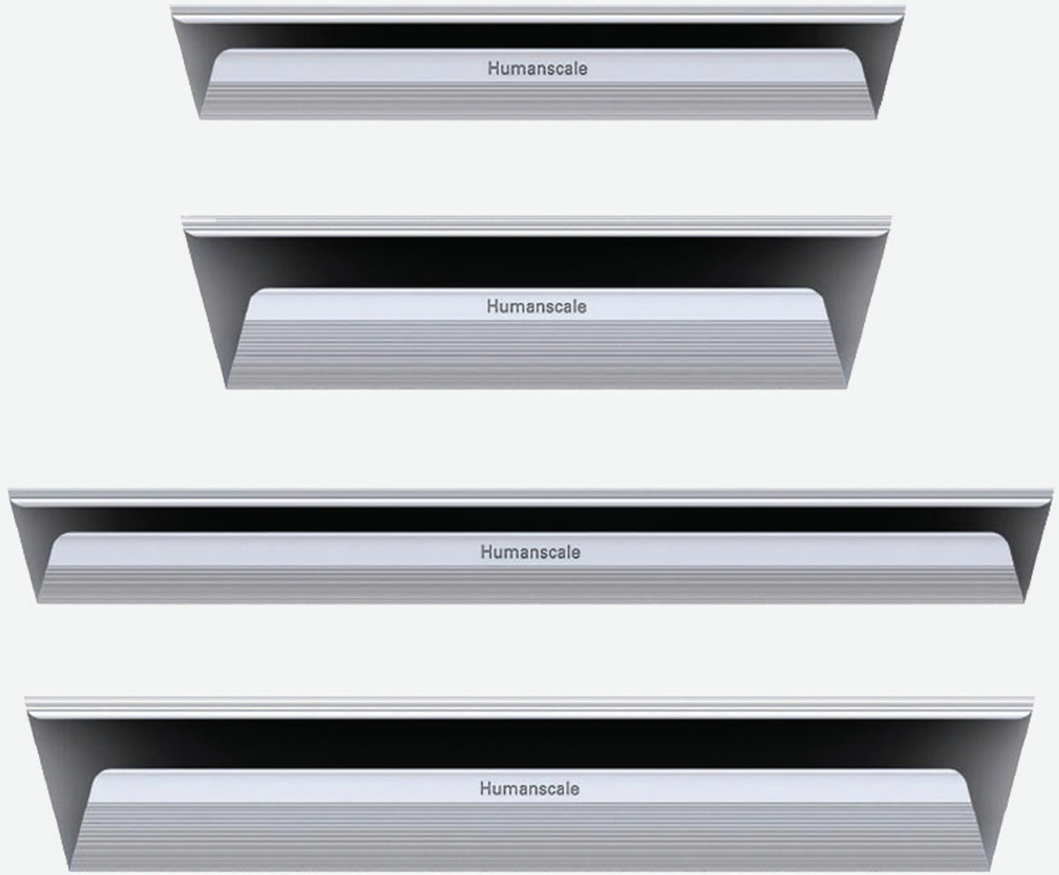

Power Meets Simplicity

NeatLinks / NeatLinks Slim

Move Freely,
Stay Organized

NeatLinks is a flexible cable management system that reduces clutter and enhances workspace organization. It routes cables, power strips, and ballasts in any direction, improving access to technology throughout the workday. Designed for a variety of applications, NeatLinks can be installed beneath a worksurface or along a table leg, keeping cords safely off the floor and out of sight. With a low-profile form and adaptable mounting options, it integrates easily into different interior settings—supporting a cleaner aesthetic, easier maintenance, and a safer, more efficient environment.

For an Organized Workspace

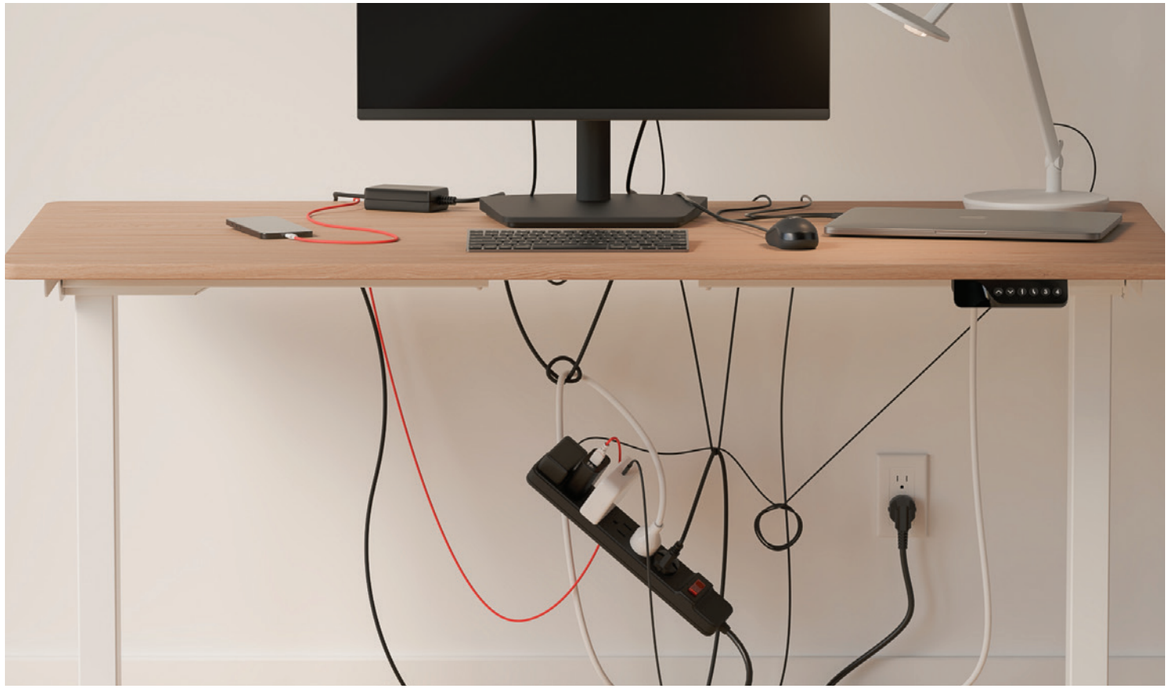

NeatTech

A Smarter Way to Manage Cables

NeatTech is designed to hold multiple power strips and cables, adjusting easily to a range of workspace configurations. Ideal for both personal desks and shared environments, it is constructed from durable, lightweight materials and is available in three distinct finish options. The open-weave mesh provides a clean, modern aesthetic; the EcoKnit option is made from recycled plastic bottles, taking sustainability to the next level; and the leather finish brings a refined, executive look. Each option is built for long-term durability and everyday performance.

NeatUp

Move Freely,
Stay Organized

NeatUp is a universally compatible cable management solution designed to keep power and data cables organized and accessible as your sit/stand desk moves throughout the day. Unlike traditional power modules that dangle below the surface, NeatUp integrates cleanly into the desk leg for a streamlined, unobtrusive appearance. Its slim, durable enclosure protects cables while ensuring smooth, tangle-free motion across all sit/stand positions—no special brackets required. Now compatible with nearly all sit/stand desk models, NeatUp delivers reliable vertical cable routing in even the most dynamic work environments.

Design Story

Based in New York City, the Humanscale Design Studio is dedicated to developing products that simplify the workspace and support greater efficiency and organization. NeatSuite was created to integrate effortlessly into modern environments, eliminating cable clutter while preserving a clean, intuitive user experience. Each product in the collection is designed with sustainability and durability in mind, ensuring workspaces remain both functional and visually cohesive over time.

Humanscale Design Studio

“We designed NeatHub to adapt seamlessly to a variety of workspaces—whether it’s a corporate desk, a shared table, or a home office. By eliminating loose cords and centralizing power access, it not only boosts productivity but also creates a safer, more organized environment.”

Applications

NeatSuite is ideal for offices, home workspaces, and sit/stand environments. Whether managing a single desk or optimizing an entire floorplan, it delivers a scalable system for power and cable control. Backed by one of the most thoughtfully designed cable management on the market, NeatSuite sets a new standard—engineered to perform at the highest level and built to look as refined as the workspace it supports.

Sustainability

Like all Humanscale solutions, NeatSuite is developed with sustainability at its core. Each component is built to last, reducing the need for replacement and minimizing waste. Manufactured in TRUE Zero Waste–certified facilities, NeatSuite helps create more efficient workspaces while supporting a healthier planet.

Built to Last

NeatSuite products are engineered for long-term use and backed by Humanscale's industry-leading warranties. Every component undergoes rigorous testing to ensure reliable performance through daily wear. With comprehensive coverage and proven durability, NeatSuite is a lasting investment in workspace organization and productivity.
