WellGuard™ Separation Panels

by Humanscale®

Designed to accommodate a wide variety of environments, Humanscale's WellGuard Separation Panels are customizable, easy to install or uninstall when no longer required and are highly durable compared to acrylic or plexiglass over the course of time. Available in Clear PETG for maximum visibility, Felted PET for added acoustical benefits, WellGuard Separation Panels can accommodate a wide range of environments.

KEY FEATURES

- Available in Plastic Resin (PETG) or Felted PET
- Customization available (special materials, sizes and shapes)
- Multiple mounting options available
- Quickly installs or uninstalls to any workstation
- Highly recyclable, sustainable and durable

Clear PETG

Ideal for visibility and easy to clean, WellGuard PETG panels blend seamlessly into your current environment. You can use clear panels when you want the most natural look.

KEY SPECIFICATIONS - PETG

- Available in several widths and heights for max. coverage
- 1/4" thickness (6mm)
- Permanent and removable mounting options available
- Customization (shapes, sizes, mounting options) available
- Significantly more resistant to breakage and easier to recycle than acrylic

Felted PET

In addition to being durable and easy to clean, WellGuard Felted PET panels provide strength and acoustical benefits that acrylic panels are unable to match.

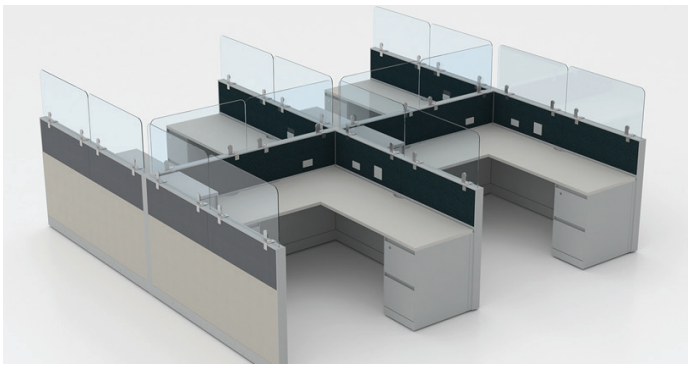

KEY SPECIFICATIONS - FELTED PET

- Available in several widths and heights for max. coverage
- 1/2" thickness (12mm)
- Permanent and removable mounting options available
- Highly sound absorbent
- Customization (shapes, sizes, mounting options) available
