Lab Dot

Harri Korhonen

Lab Dot Chair is a new addition to Inno's Lab family, introducing a fresh, architectural take on soft seating for public and work environments. Rooted in the cosy office concept of the Lab series, it combines strong character with a welcoming sense of comfort.

The Lab Dot Chair is built from three generously pillow-like elements gathered around the seat. This simple construction creates a bold, sculptural form that feels soft, relaxed, and inviting. Fully upholstered, the chair balances architectural clarity with everyday comfort.

Designed for modern offices, lounges, and public spaces, Lab Dot continues Inno's exploration of comfort, flexibility, and social interaction, key elements in creating spaces where people want to gather, work, and feel at ease.
